Meter Box Relocation Instruction – Using the floor plan below, please identify any doors, windows, drains, vents, electric meter box (meter boxes should be 150mm apart) Please also mark any pathing areas and where possible provide photos of the existing and new meter positions) If the new meter position is at the side of the property, it needs to be a maximum of 2m from the gable end. Please see example on Page 3.

**Please confirm the following:**

- Confirm existing box type and position on the property. Mark with an 'M'
- New box type and position on property. Mark with an 'X'
- Confirm if you will be doing the excavations required to relocate the meter:

(These are: excavation 1.2 metres x 1.2 metres to gain access to the existing service pipe and trenches of 600mm x 600mm wide and deep to the new meter position)

- **Under no circumstances should a PE gas pipe be under any part of a building.**
